NDA and non-circumvention

Version 2.4

- Keep it confidential. Anything you learn about a vessel or its seller stays with you and your advisers.
- Deal through tx*. For 24 months you won't go around us to an owner, seller or broker we introduced.
- The fee follows the introduction. If you buy a vessel we introduced, the success fee is due, even if it closes later.

Confidentiality and non-circumvention apply to every introduction on this lane.

1. Confidential information. "Confidential Information" means all information disclosed through txmaritime about a vessel, its owner, seller or broker, including identity, IMO number, specifications, class records, photographs, pricing and the fact that a vessel may be for sale, whether disclosed before or after the date of this agreement.

2. Use and disclosure. You will use Confidential Information solely to evaluate a possible purchase of the vessel and will not disclose it to any person other than your directors, employees, financiers and advisers who need to know it and are bound by confidentiality.

3. Non-circumvention. For 24 months after an introduction you will not knowingly deal with that owner, seller or broker about that vessel except through tx*, even if the mandate has expired.

4. Fee. Posting a mandate is free. If you buy a vessel introduced through a mandate, a 1% success fee is due on closing.

5. No agency. tx* introduces parties. It is not a party to the sale, not the owner, and not your broker of record unless a separate writing says so.

6. Screening. tx* may decline or pause a mandate or an introduction where sanctions, KYC or ownership is unclear. A cleared status in this product is a staff decision, not a warranty.

7. Version. The version stamped on the acceptance record is the text that was hashed.
